A Lenten Journey of "Living" Laudato Si': On Care for Our Common Home

April 21 EASTER SUNDAY On this glorious day "let the earth rejoice, in shining splendor" even though it is so often mistreated greedily exploited, resulting in an alteration of natural equilibria. I think especially of those areas affected by climate change, which not infrequently causes drought or violent flooding, which then lead to food crises in different parts of the world. - Pope Francis, Easter 2016
